Springfield, Illinois

## SPECIAL NOTICE

During the National Meeting held in Evanston, Illinois, I was fortunate enough to obtain the stock of "Crown of Gold".

Members saw it blooming in the gardens of Mr. Orville Fay, of Wilmette, Illinois, under the name of "Crown of Gold"; and in the garden of Mr. David F. Hall (in the back 40), under number 38-2 $\frac{1}{2}$ .

It was much admired by both Members and Judges.

## CROWN OF GOLD

Introducing a new clear, deep yellow, from the outstanding hybridizer Mr. David F. Hall.

"Crown of Gold" is a very clear, deep yellow, orange beard, is a large flower with good substance. Height 36 inches; 11-12 buds; has very well branched stems; is a good increaser.

Although many new yellows have been introduced lately there is still room for a good early yellow.

"Crown of Gold" is one of the first tall bearded Iris to bloom, but, due to the large number of buds, it blooms well past the middle of the season.

Due to the lateness in obtaining "Crown of Gold" and in getting the name, the introductory price for 1940-1941 is \$10.00 per rhizome.
